School Profile

Hemet High is a premier high school in Riverside County. Academic programs and extracurricular activities are comprehensive, meeting the needs of a variety of students. Enriched coursework includes honors and advanced placement courses, and a strong Academic Decathlon Program, which placed first or second in Riverside County for the last 11 years. The vocal, instrumental, dance and cheer programs at Hemet High are nationally known and form a Performing Arts Academy open by audition. Hemet is proud to have a strong Vocational Education Program that provides courses on our campus, these include: automotive repair, retail, and cabinet making, and agriculture. Hemet High has a very active agriculture program and a distinguished AFJROTC unit. Our auto shop is AYES and NATEF certified and has many auto dealers as partners.

The staff at Hemet High is unsurpassed in its experience and dedication. They are community members who take great pride in the achievements of their students, offering each one of them tremendous support. Hemet High is committed to providing its students the tools they need to be successful citizens in the 21st Century. With a strong sense of past and a forward outlook, it is an outstanding school.

Mission Statement

Hemet High School provides all students with a quality comprehensive education that incorporates a standards-based curriculum through a variety of learning experiences that prepare students to be productive caring citizens in a changing world.

School Goals

- Reading, Writing, and Communication Skills
- Ethical, Honest, and Healthy Behavior
- Applied Knowledge and Reasoning Skills
- Lifelong Learners

Opportunities for Parent Involvement

The site addresses the six areas of parent involvement through their comprehensive school plan. Parents may also be involved in: School Site Council; English Learner Advisory Council; Performing Arts Parent Club; Athletic Parent Clubs; and Grad Nite (Parents). For more information, contact the site Principal, Mr. Bill Black at (951) 765-5150.

District Profile

Hemet Unified School District encompasses one incorporated city and numerous unincorporated communities within its 700+ topographically diverse square miles. We have 29 elementary and secondary schools with an enrollment of over 23,000 students. Agriculture still provides an important economic influence, as do other light and service industries. The rural flavor of the community still survives despite the rapid growth which has taken place in the area.

Hemet Unified School District's Core Values

1. Provide a data-driven, standards-based academic program in which students and staff can succeed.
2. All students will improve their achievement in each subject each year.
3. Recruit, train, retain the very best staff for HUSD.
4. Effective initial instruction is the most powerful tool for achievement.
5. Provide viable alternative pathways for student success.
6. Nutritional and physical well-being supports academic achievement.
7. Non-academic endeavors and activities are necessary to provide a balanced educational experience.
8. The quality of our published works and the state of our facilities reflects how we view ourselves.
9. HUSD is responsible to respond positively and proactively to changes in our community.

Professional Development

The school district provides all staff members with opportunities for professional growth and training in a variety of programs so that all teachers and paraprofessionals may become highly qualified under the No Child Left Behind law. The focus is on the delivery of a standards-based instructional program. District professional development priorities are outlined in the current LEA addendum as Curriculum Specific Trainings in Language Arts and Mathematics, Administrator Training Program, English Now, BTSA Induction Support for year one and year two teachers, and specific Special Education trainings. Peer Assistance Review (PAR) is available to veteran teachers who need unique structure and support. Achievement data is used to determine site support and priorities in professional development. Moreover, three BTSA induction support providers, seven instructional coaches in language arts and mathematics, and five Reading First coaches provide ongoing support in day to day professional development needs for all instructional personnel. The District revised the Technology Plan in 2006 to include opportunities for staff to increase skills in technology application and instruction.

Professional Development (continued)

Categorical funds at the district and site level are designated for a Director of Professional Development, a secretary and an eight-hour clerk to coordinate district professional development. The District has a professional development At a Glance calendar on the website for the 2009-2010 school year.

Hemet High School works to expand staff development opportunities. Professional development activities reflect the school improvement objectives identified for each department and most recent WASC Accreditation Report. Hemet High received a six-year accreditation in 1998, and 2004. We are currently accredited through 2010.

School Site Safety Plan

SB187 Safety Plan

Date the plan was last updated: June, 2009

Date the plan was last reviewed: June, 2009

The Comprehensive Safe School Plan is fully incorporated in the Single Plan for Student Achievement, Goal 4, and includes data regarding California Healthy Kids Survey, crime, safe school procedures and compliance with laws including: (1) child abuse reporting, (2) disaster response, (3) suspension and expulsion policies, (4) notification of teachers of dangerous pupils, (5) sexual harassment, (6) schoolwide dress codes prohibiting gang-related apparel, (7) procedures for safe ingress and egress from school, (8) procedures to ensure a safe and orderly environment conducive to learning, and (9) rules and procedures on school discipline adopted pursuant to Ed Code Sections 35291 and 35291.5. A copy of the Single Plan for Student Achievement is available for inspection by the public at each school.

Pursuant to state and District guidelines, Hemet High has a disaster preparedness plan and students participate in bi annual fire and earthquake drills. Classrooms have posted evacuation charts, and are equipped with disaster packets and fire extinguishers. The School Safety Committee conducts monthly, campus-wide, safety inspections and twice yearly, the county fire marshal inspects.

Facilities Maintenance

Hemet High School opened its doors in 1972 and additions were made in 1987. Modernization was initially done in 2003, and plans are now underway for future capital improvements over the next three years. Hemet High School facility promotes teaching and learning. Every classroom has adequate space and all the materials needed to ensure student success. Plans call for a new permanent classroom building, a new theater, and a new administrative building within the next couple of years.

This table displays the results of the most recently completed school site inspection to determine the school facility's good repair status.

Curriculum and Instructional Materials

A District committee considers textbooks for recommendation on a cycle established by the State Board of Education and from a State adopted list. The committee meets to discuss current issues relevant to the subject matter, including student success, previously used textbooks, and instructional methods. The committee reviews demonstration copies of proposed textbooks, as well as listen to representatives describe the various highlights of the available materials. The review is followed by a pilot of materials that results in consensus by the committee of a recommended textbook. The textbook is forwarded to a K-12 Curriculum Council, which consists of teachers, parents, and community stakeholders, for review and approval. If the textbook is approved by the K-12 Curriculum Council, the textbook is forwarded to the Superintendent and the Governing Board for their review and approval. Each pupil in the district, kindergarten through grade twelve, is provided with standards-aligned textbooks or basic instructional materials that are consistent with the content and cycles of the curriculum framework adopted by the State Board.

In accordance with Education Code Section 60422(a) and 60119, the Governing Board certified on 10/6/09 that each pupil in the district, in kindergarten through grade twelve, has been provided with standards-aligned textbooks or basic instructional materials in each of the areas listed below (0% lack textbooks and/or instructional materials in any of the listed areas). The chart below outlines the textbooks adopted and used by Hemet Unified School District.

DataQuest and Access to Data

DataQuest is an online data tool located on the CDE DataQuest Web page at <http://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district, the county, and the state. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g. Academic Performance Index [API], Adequate Yearly Progress [AYP], test data, enrollment, graduates, dropouts, course enrollments, staffing, and data regarding English learners). Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

California Standards Tests (CST)

The California Standards Tests (CSTs) show how well students are doing in relation to the state content standards. The CSTs include English-language arts and mathematics in grades 2 through 11; science in grades 5, 8, 9, 10, and 11; and history-social science in grades 8, 9, 10, and 11. Student scores are reported as performance levels. Detailed information regarding CST results for each grade and performance level, including the percent of students not tested, can be found at the CDE Web site at <http://star.cde.ca.gov>. Note: Scores are not shown when the number of students tested is 10 or less, either because the number of students in this category is too small for statistical accuracy, or to protect student privacy.

National Assessment of Educational Progress

The National Assessment of Educational Progress (NAEP) is a nationally representative assessment of what America's students know and can do in various subject areas. Assessments are conducted periodically in mathematics, reading, science, writing, the arts, civics, economics, geography, and U.S. history. Student scores for reading and mathematics are reported as performance levels (i.e., basic, proficient, and advanced) and the participation of students with disabilities and English language learners is reported based on three levels (identified, excluded, and assessed). Detailed information regarding the NAEP results for each grade, performance level, and participation rate can be found on the [National Assessment of Educational Progress](#) Web page (Outside Source). Information on the differences between NAEP and CST can be found on the CDE [National Assessment of Educational Progress \(NAEP\)](#) Web page.

Adequate Yearly Progress (AYP)

The federal NCLB Act requires that all schools and districts meet the following Adequate Yearly Progress (AYP) criteria: 1) Participation rate on the state's standards-based assessments in English-language arts (ELA) and mathematics, 2) Percent proficient on the state's standards-based assessments in ELA and mathematics, 3) API as an additional indicator and 4) Graduation rate (for secondary schools).

Federal Intervention Program

Schools and districts receiving federal Title I funding enter Program Improvement (PI) if they do not make AYP for two consecutive years in the same content area (English-language arts or mathematics) or on the same indicator (API or graduation rate). After entering PI, schools and districts advance to the next level of intervention with each additional year that they do not make AYP. Detailed information about PI identification can be found at the CDE Web site at <http://www.cde.ca.gov/ta/ac/ay/>.

California High School Exit Exam (CAHSEE) Results

The California High School Exit Exam is primarily used as a graduation requirement in California, but the results of this exam are also used to determine Adequate Yearly Progress (AYP) for high schools, as required by the federal No Child Left Behind (NCLB) law. The CAHSEE has an English language-arts section and a math section and, for purposes of calculating AYP, three performance levels were set: Advanced (Adv.), Proficient (Prof.), and Not Proficient (Not Prof.). *Note: To protect student privacy, scores are not shown when the number of students is 10 or less. The score a student must achieve to be considered Proficient is different than the passing score for the graduation requirement.* This table displays the percent of students achieving at the Proficient or Advanced level.

Admission Requirements for California's Public Universities (University of California)

Admission requirements for the University of California (UC) follow guidelines set forth in the Master Plan, which requires that the top one-eighth of the state's high school graduates, as well as those transfer students who have successfully completed specified college work, be eligible for admission to the UC. These requirements are designed to ensure that all eligible students are adequately prepared for University-level work. For general admissions requirements please visit the General Admissions Information Web page at <http://www.universityofcalifornia.edu/admissions/general.html>.

Admission Requirements for California's Public Universities (California State University)

Admission requirements for the California State University (CSU) use three factors to determine eligibility. They are specific high school courses; grades in specified courses and test scores; and graduation from high school. Some campuses have higher standards for particular majors or students who live outside the local campus area. Because of the number of students who apply, a few campuses have higher standards (supplementary admission criteria) for all applicants. Most CSU campuses utilize local admission guarantee policies for students who graduate or transfer from high schools and colleges that are historically served by a CSU campus in that region. For general admissions requirements please visit the California State University Web page at <http://www.calstate.edu/SAS/admreq.shtml>.

Advanced Placement Courses

The results profiled in the summary are based on all students who attempted an Advanced Placement (A.P.) Test from district high schools in 2008-2009. The results reflect all tests attempted. Some students attempted more than one test; therefore, the number of attempted tests does not indicate unique students. Advanced Placement tests are important for college bound students in that students may receive "credit" for college classes if they earn a 3, 4 or 5 in an exam. Each college and university determines its own policy. In some cases, students earning a '5' may be given credit for two classes of freshman level college work. It is difficult for smaller schools to offer the same number of AP courses as the larger schools. At smaller schools AP courses are often combined with non-AP courses, i.e., United States History and AP United States History. Administration supports AP students in combination classes by providing tutorial assistance. Students at smaller schools can also access AP courses on-line through the University of California.
